Unique Cultural Tours

Living/Homestays In Kenya

This unique experience offers the opportunity to see Kenya in a very different way. It can be worked in as a part of another itinerary, or it can stand alone as a trip for any length of time up to 48 days. The following opportunities, all personally guided by Ena's close friend, include homestays with local Kenyans and the opportunity to participate, at your own pace, in the daily life of Kenya. These opportunities allow you to **experience a different side of life in Kenya**, while **still enjoying more tourist-traditional activities** such as game drives and other activities.

You can also choose to visit the local residents and still stay in safari camps/lodges/hotels if you would rather not stay in the local homes. Prices vary depending on the length of time and level of accommodation that you desire. As a pricing index, a 48-day trip (including climbing Mt. Kilimanjaro and a 7-day stay at a beach as the trip's finale) staying with families and in very basic/local hotels (with indoor bathrooms), would cost under \$10,000. Contact Ena for more specific information such as itineraries and prices, because these tours vary greatly according to the way in

which you wish to make Africa an adventure all your own. Below is a sample, full-length itinerary (not including international travel to/from Kenya).
